BUSINESS AUTOMATION TRANSFORMATION

Corporate profile · 2026

We build the software your business runs on.

ERP platforms, apps, games and crypto ecosystems, designed, built and run by one team for businesses in six countries.

Building technology that works for tomorrow

About us

Technology that solves real business problems.

BAT Web Solutions is a technology-driven company building smart, scalable and future-ready digital solutions: web and mobile apps, AI-powered platforms, analytics-driven systems and custom software.

Founded to simplify outdated processes and reduce unnecessary complexity, we work closely with startups, enterprises and institutions. Led by Raj Sampat, Chief Executive Officer.

25+
Clients and brands served

E-Commerce

Storefronts and payment gateways

Web3

Ecosystem Development

Connected apps, wallets and communities

Cryptocurrency and Tokens

Coin design, mining and utility

Blockchain

Ledger-backed products

Run

Cloud Services

Google Cloud and AWS

Maintenance and Support

Dedicated coordinator, 24/7

IT Consultation

Technology direction

Models

Product as a Service

We build and run the product

Business as a Service

Operations delivered through software

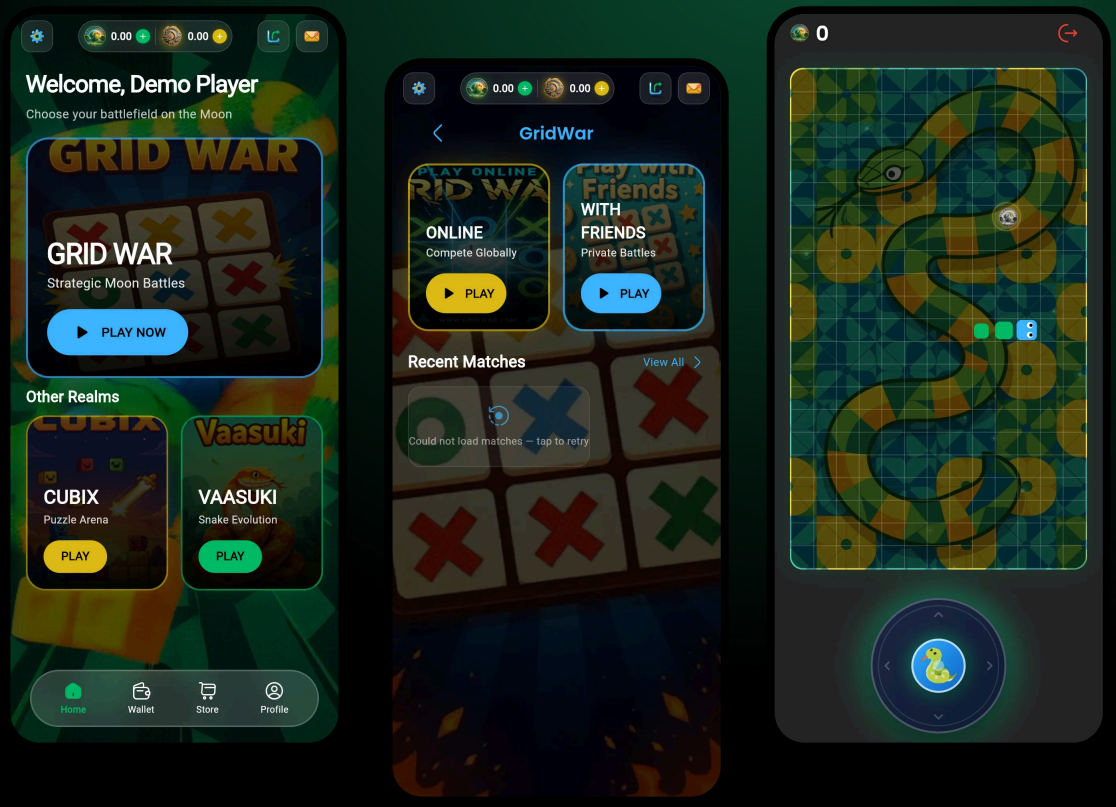

Prime · Mobile gaming

GreenVerse Games

We built one app with three games. Players battle online, challenge friends or practise against a bot, buy themes in the store and swap MGH, YAN and USDT in their wallet, in 7 languages. An admin panel runs analytics, players, rewards, tickets and the store.

- **Grid War.** Strategy battles online, with friends or against a bot.
- **Cubix.** A puzzle arena that rewards quick thinking.
- **Vaasuki.** Snake evolution with survival and strategy.
- **Leaderboards.** Rankings for every game, plus loyal player rewards.
- **Theme store.** Icons, buttons, blocks and snakes bought with MGH.

Prime · OTT, web and mobile

TinyTube

TinyTube is the streaming app of the Chandrayaan ecosystem, on web and mobile. Viewers watch originals and videos, scroll short ThReels, listen to music and audiobooks, and mine MOM coins into their wallet as they go.

- **Originals and videos.** A full library with trending and continue watching.
- **ThReels.** Short vertical video.
- **Listen.** Music and audiobooks in the same app.
- **MOM mining.** Viewers earn coins while they use the platform.
- **Wallet and earnings.** Balances and history in one place.

Prime · Pharma distribution

Get Well ERP

We built the ERP that Ste Get Well Pharma runs on: sale invoices, receipts, returns and proformas, purchase orders, inventory across shops and depots, cash reconciliation, ledgers and reports, in English and French. It syncs with Tally and keeps working offline. We also built the company website.

- **Sales.** Invoices, receipts, returns and proformas.
- **Purchasing.** Purchase orders, approvals and returns.
- **Inventory.** Shops and depots, stock requests and dead stock.
- **Accounts.** Ledgers, expenses and cash reconciliation.
- **Reports.** Sales, purchase, inventory, credit and payroll.

Prime · Legal tech

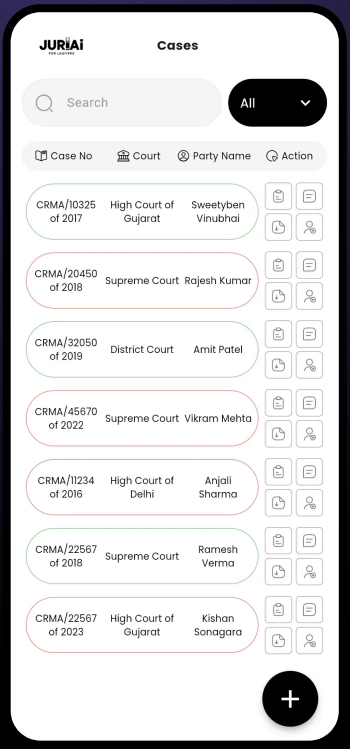

JuriAI

JuriAI gives lawyers a cause-list calendar by court, case files with documents, orders, notes and date history, a research assistant, accounts and office expenses, and messaging. Clients get their own panel for cases and billing.

- **Cause-list calendar.** Hearings by date and court.
- **Case files.** Documents, orders, notes and date history.
- **Research assistant.** AI help inside each case.
- **Accounts.** Client billing and office expenses.
- **Messaging.** Messages and notifications to clients.

Prime · Crypto ecosystem

Chandrayaan Ecosystem

Chandrayaan is a partnership. We developed its ecosystem so that YAN, MOM, LOM, COM and MGH carry value across apps: users earn in TinyTube, play in GreenVerse and hold it all in one wallet.

- **Five coins.** YAN, MOM, LOM, COM and MGH.
- **Earn.** Mining through TinyTube.
- **Play.** Spending and winning in GreenVerse.
- **Wallet.** One wallet with swaps across apps.

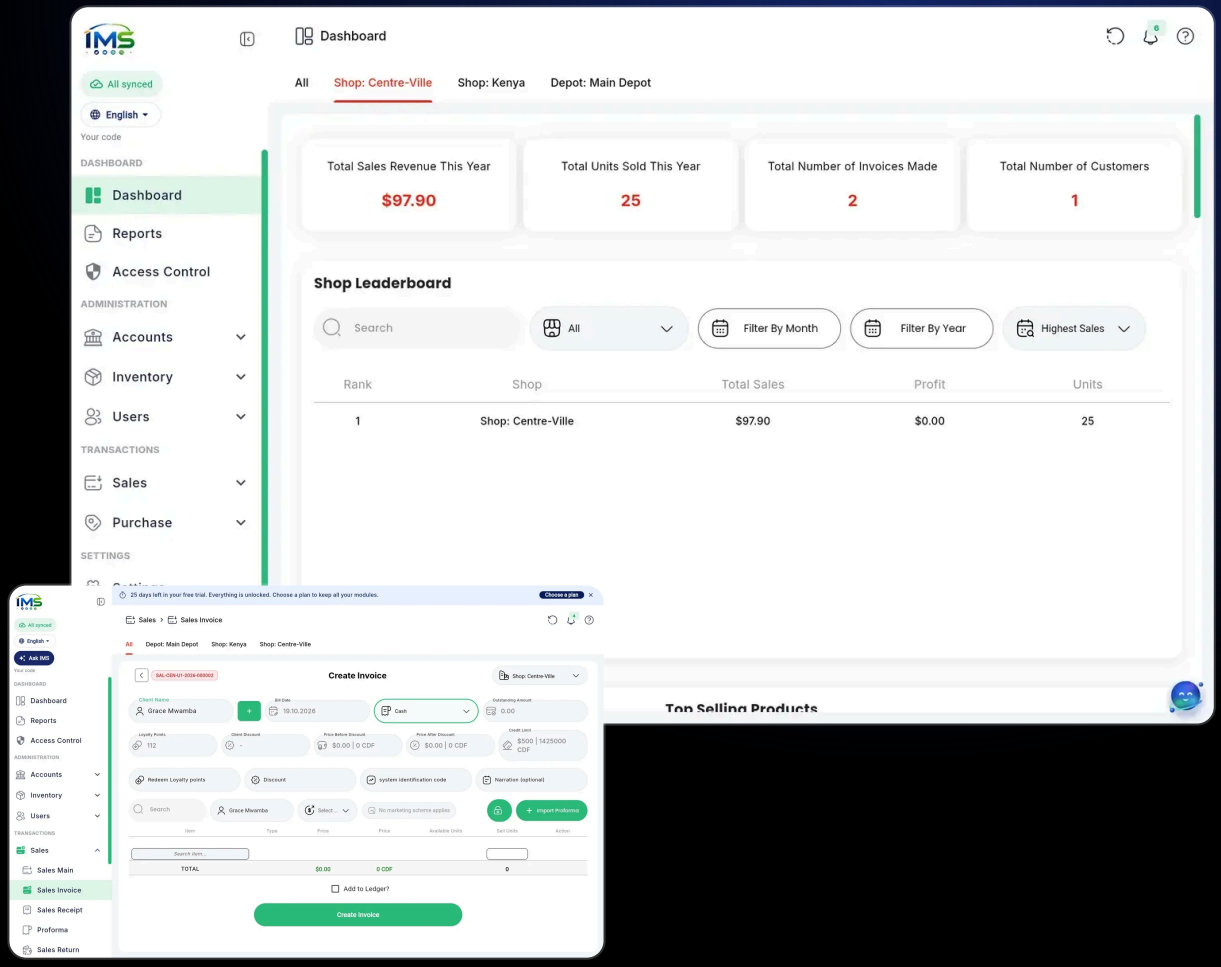

Partnership · Cloud ERP

IMS

IMS is our partnership with IMS Global Solution. It keeps stock, sales, purchasing, accounting and payroll on one database, in 9 languages. Businesses start free with 2 users and add modules as they grow.

- **Inventory.** Batches, expiry dates and transfers.
- **Sales and POS.** Invoices, returns and loyalty.
- **Purchasing.** Suppliers and purchase orders.
- **Finance.** Accounting, expenses and profit and loss.
- **HR and payroll.** Attendance, loans and salaries.

"We run our pharmacies and depots on IMS every day. Sales, stock and cash finally agree, and I can check every branch from my phone."

Murtaza Laxmidhar, Ste Get Well Pharma

"Before IMS we counted stock by hand at the end of every month. Now I see every product, batch and expiry date in real time."

Kevin, Ruashi Pharma, Lubumbashi

Leadership

The people behind the work.

A certified delivery team with a dedicated coordinator and specialist on every client, and cloud management around the clock.

Raj Sampat
CEO and Managing Director

Niyati Shah
Director, Legal and Accounts
